

Activity-Introduction to EHR Tutor Worksheet

This activity does not assume any nursing knowledge. It is an activity to introduce you to the functionality and navigation of EHR Tutor.

Log into EHR Tutor. If you have not activated your account you need to do that now.

When you have logged in, Review the site while reading your Tipsheet and moving from section to section in the EHR Tutor website. When you have finished reviewing the site with the Tipsheet, complete the activity below.

Patient Summary

What is the patient's weight?

What is the patient allergic to?

What is this patient's order for activity?

What is the pH value for this patient?
